Please find an appropriate home in the database for the letter attached to Karen Schwinn's message, below. This pertains to the Bay Delta Conservation Plan, for which we are a cooperating agency. The letter was written to address an issue that has come up in interagency meetings regarding the development of the BDCP DEIS, not in response to a document submitted for our review. If you need a Word version, in addition to the pdf below, please contact Karen Schwinn. Tom Hagler might also have it.

Thanks -

-Kathy

Subject: EPA letter on BDCP Purpose

As we've discussed over the last several months, EPA has serious concerns with the current BDCP Purpose statement. Given the inability to resolve this at our level and the tight time frame for producing the DEIS, we have elevated the issue within EPA, resulting in this letter, which is being sent to the lead federal agency directors today. Given our previous discussions, nothing here will be new to you. - Karen
